

FIGHTING FOR AMERICA'S ENERGY FUTURE

Building Pipelines

Energy Independence is Within Our Grasp

- Production of natural gas and Northern American oil will allow the U.S. to overtake Saudi Arabia as the largest oil producer within **4 years**
- **80%** of our nation's energy comes from fossil fuels
- By **2030** the U.S. could become completely energy dependent

"All of the Above" Energy Policy Can Put Americans Back to Work

- **\$305 billion** in investment and **3.5 million jobs** are estimated to be generated from hydraulic fracturing
- LIUNA members worked **15 million hours** in 2013—a **52%** increase from 2011
- LIUNA members work **6 million hours** annually in gas distribution

Working to Make Pipelines Safe

- Pipelines are the safest way to transport fuels—**70 times** safer than by truck
- LIUNA offers over **164 hours** of pipeline safety and qualification training
