This open two-story home has a 19-ft. entry seldom seen in a two-story, a free standing staircase, and an eye-popping barrel vault with bead board ceiling in the kitchen – along with an expansive island the size of Delaware! The 3,537 sq. ft., 5-bedroom, 5-bath Lauren model features a main level flex room/office, the deluxe trim package, and standard amenities including hardwood and tile flooring, custom cabinetry, gas cook top, tile back splash, and under counter lights. THE HOME4LIFE (H4L) 1.5-STORY PLAN

Introducing the stunning 1.5-story Home4Life (H4L) that sets a new standard of excellence in main floor living. Now you can realize the dream home you've always wanted. Dramatic 19 ft. open great room with 12 ft. by 8 ft. doors leads to a covered deck. Other features include a floor-to-ceiling stone fireplace, a curved free-standing staircase, 8 ft. doors on the main level, a master bedroom retreat, second bedroom/flex room on the main floor, a kitchen the envy of any chef. All bedrooms come with a private bath. There are first and second floor laundry rooms, and an oversized garage with NO support posts!

THE RANCH PLAN

The single story home you've thought about for years is here! One-story ranch style homes are a popular choice for many homeowners. Our Home4Life (H4L), Grand H4L, Reflection and Grand Reflection models are all built as ranch plans depending on your preferences and budget. Ranch plans are all about openness – few interior walls, and an efficient use of space that's ideal for those who prefer single-level living. We've learned there are as many variations of ranch plans as there are buyers, so we specialize in custom ranch plans that are as diverse in floor plan and exterior style as you want.

THE REVERSE 1.5-STORY/REVERSE RANCH PLAN

A reverse plan features a main floor master bedroom (at a minimum), with the remaining bedrooms on the lower level. We build our Reflection, Grand Reflection, Home4Life (H4L) and Grand H4L models as reverse plans. Let us create a lower level that fits your lifestyle – whether you want a recreation area or bar area, a wine room or exercise room. Depending on your plan, our Reverse 1.5 homes are built with two master suites on the main floor, a huge open kitchen area, site-finished hardwood and tile flooring, a lower level bar, a covered back deck, the deluxe trim package, custom built cabinetry, granite countertops and much more.
