

It's Wreath shipping time again!

Share the fragrance of the Northwest this holiday season with family and friends, and let Windmill Gardens take care of the details. Our hand-made wreaths are made from fresh Noble fir, pine and cedar, and decorated with pine cones, berries and a weatherproof red velvet bow. We think of them as a circular forest because they incorporate so many pieces of our beautiful surrounding woods. They measure approximately 24" in diameter and will be shipped out starting the last week of November unless you specify otherwise. Call us or stop in to place your orders!

For our **Birds & Berries wreath**, we combine fresh noble fir with birds, raffia, twigs, and a bow in a natural style. Definitely our most popular wreath!

Our **Cascade Premium** is noble fir mixed with greens, incense cedar, juniper berries and cones with a cheery red velvet bow.

Our **Door Swag** is a wonderful double pointed noble fir swag with cones and a charming red bow.

UPS WILL NOT DELIVER TO P.O. BOXES!
