“The County’s Newest And Most On-Trend Salons”

We combed the county to find who’s on the cutting edge.

Co-owners and sisters Zamira Cutra and Val Tana opened VaZa Salon, a high-end hair salon committed to providing customers with quality services based on their unique hair textures—and total relaxation. “You are greeted as soon as you walk into the salon,” says Cutra. “We want everyone to feel like family here.”

Opened: November 2013

Vibe: A sleek, modern interior installed in a vintage bank building gives this salon an eclectic feel. During the renovation, Cutra and Tana kept the floor-to-ceiling windows, marble columns, and exposed brick intact. Light and bright, it features some unusual salon amenities, such as chaise lounges at the hair-washing station (divine and comfy) and a communal table at which the stylists consult with clients and take frequent education classes.

Specialties: Got curls? Women and men both should check out the salon’s curls-specific cuts, and the highly qualified team of hair designers who make the most of natural curls. insider tip: The chaise lounges are designed to align clients’ spines during the shampoo and rinse. “The most relaxing part of the VaZa experience is having your hair washed,” says Tana.
